01

Consulting & Planning

02

Info gathering & designing

03

Quality Assurance

04

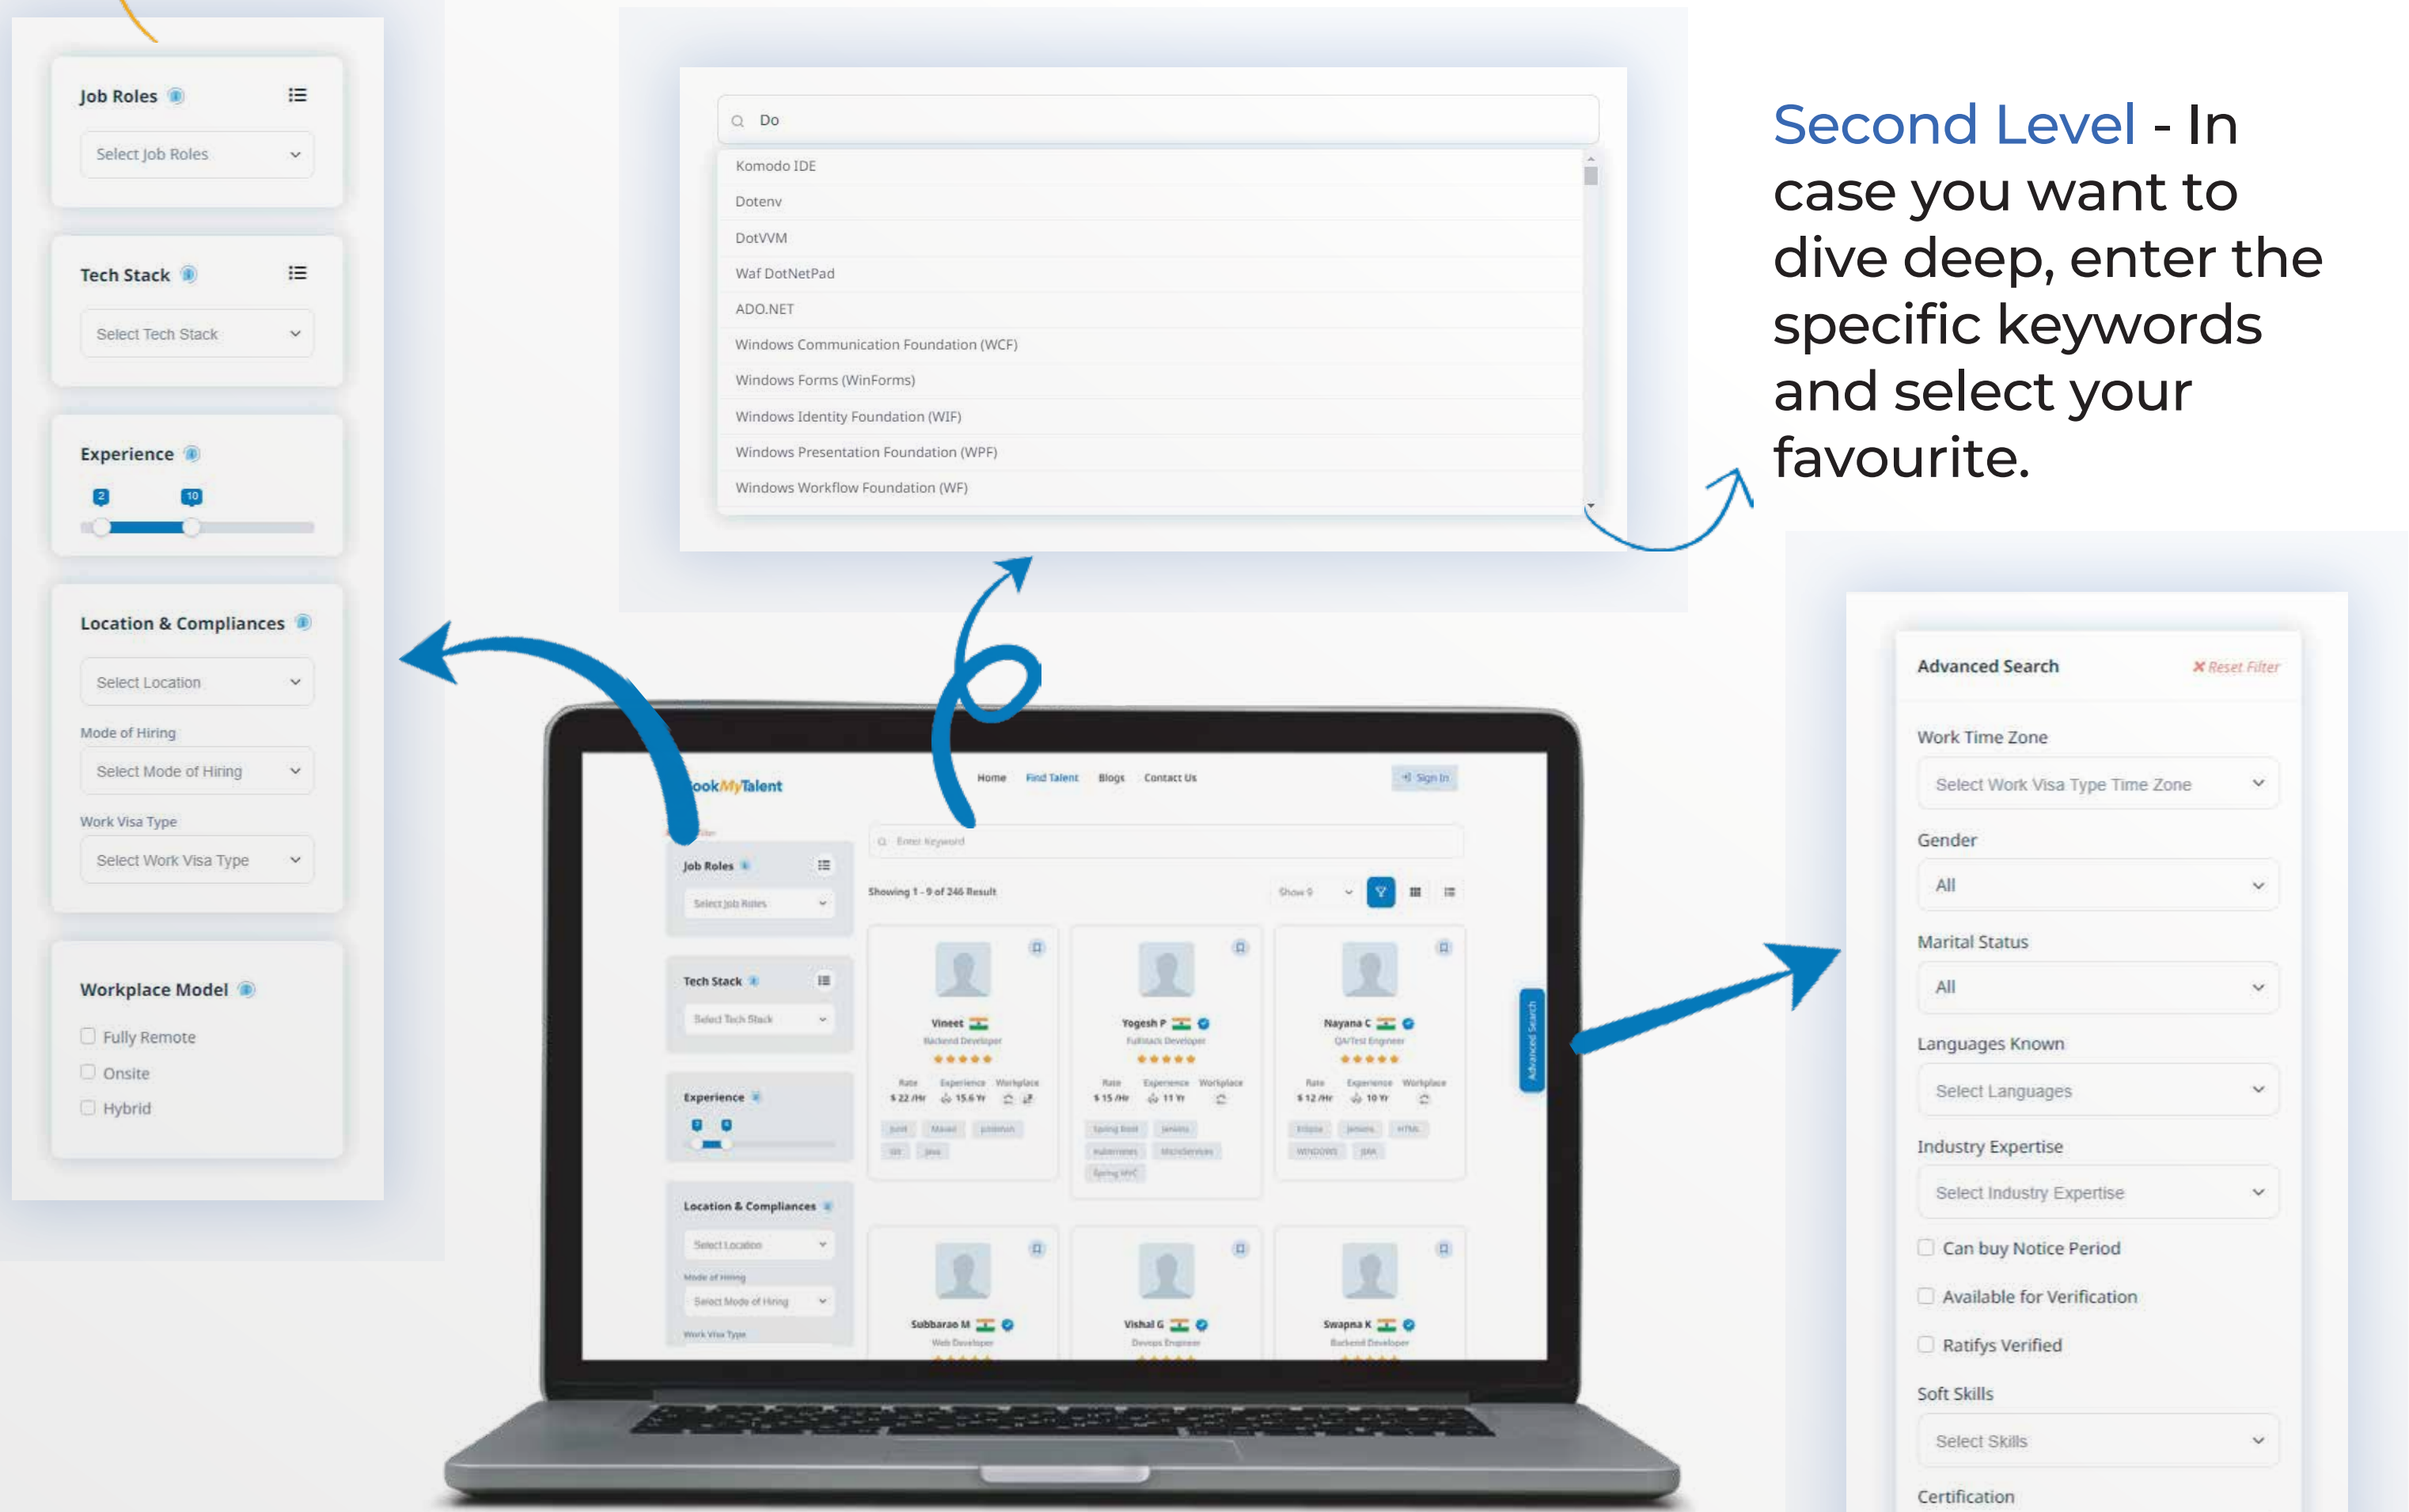

Development & deployment

05

Maintenance & support

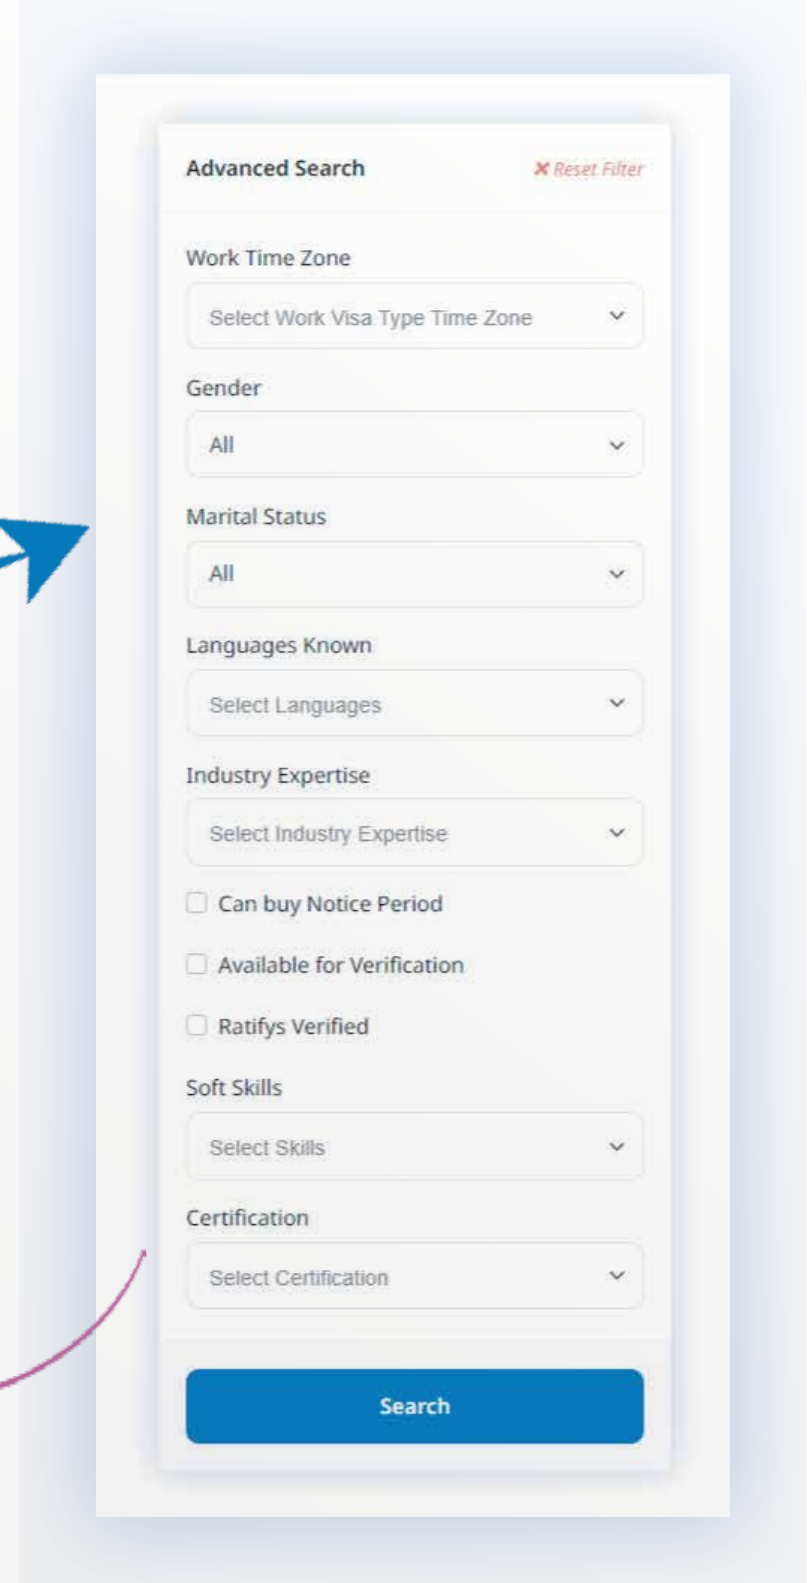

Filter Your Way Out

Enter the funnel - Click on the down arrow to select the Job Role, repeat the same with tech stack to dig a little deeper, choose how many years of experience would entice you, keep on clicking and selecting and at last tick on the workplace model your company would require.

Step before filtering out - Sort out the final list of candidates by selecting the gender, marital status, expertise in languages, what soft skills you want etc and boom... list of filtered out candidates will come on your screen in no time.

Second Level - In case you want to dive deep, enter the specific keywords and select your favourite.

Some Unique Features

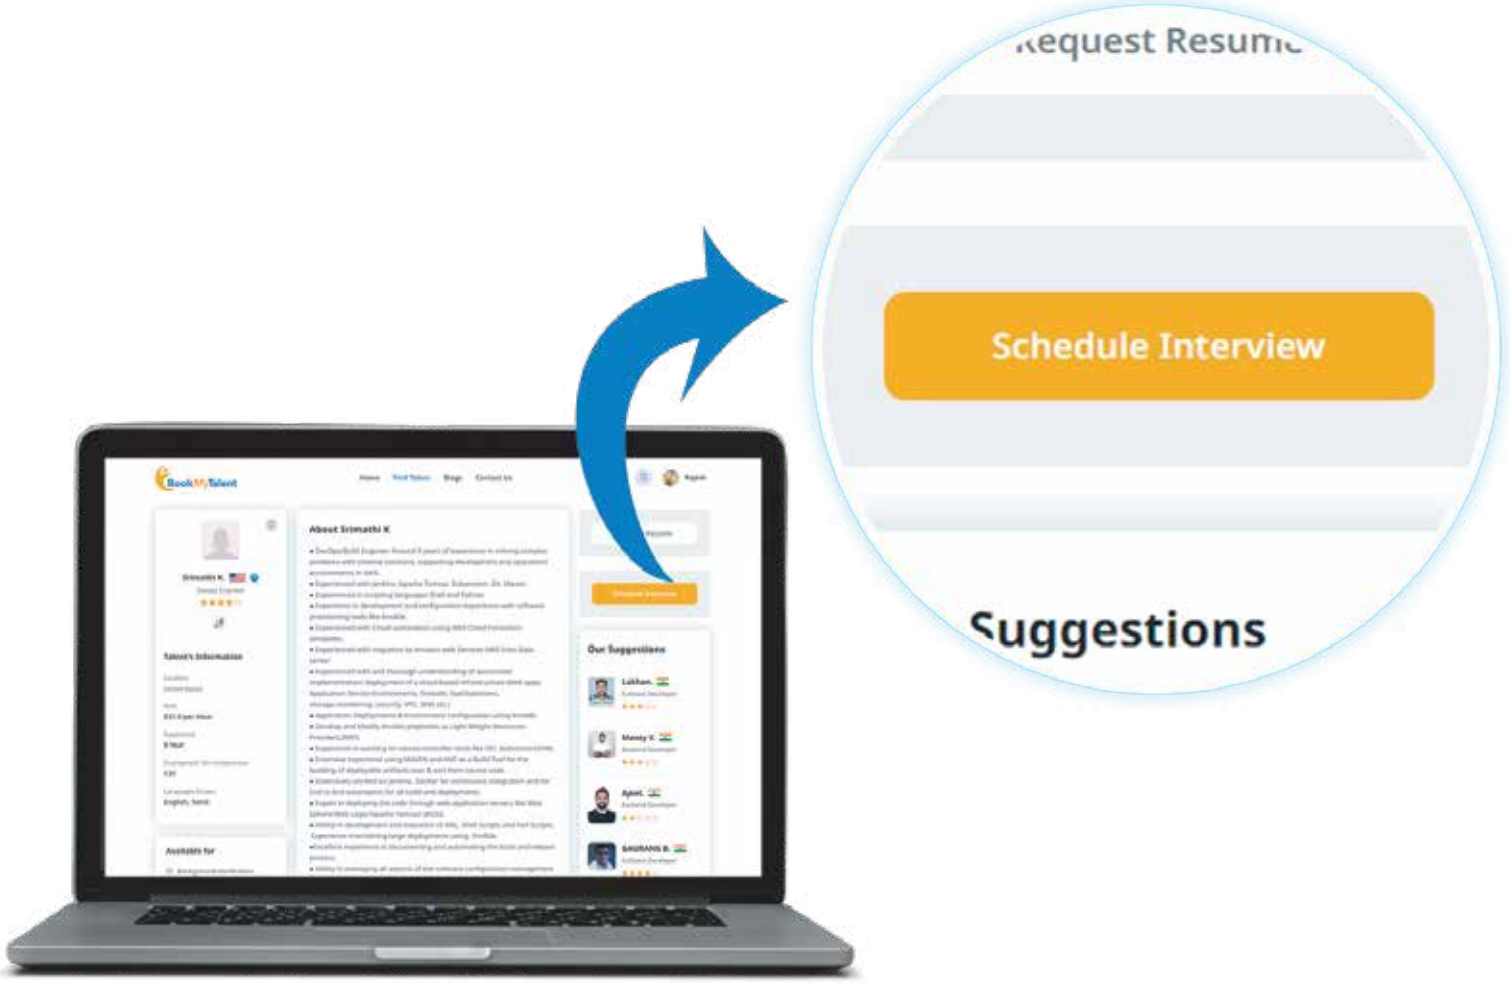

Select from **50+** talent categories

Choose from a wide range of global talented tech stack that will put in their meaningful inputs contributing to critical projects and delivering impactful results.

One click interview scheduler

Choose your required talent and simply click the Schedule Interview button to narrow the funnel and schedule the interview. Select one of the predefined available slots or share with us your available time.
