We Don't Say It!!

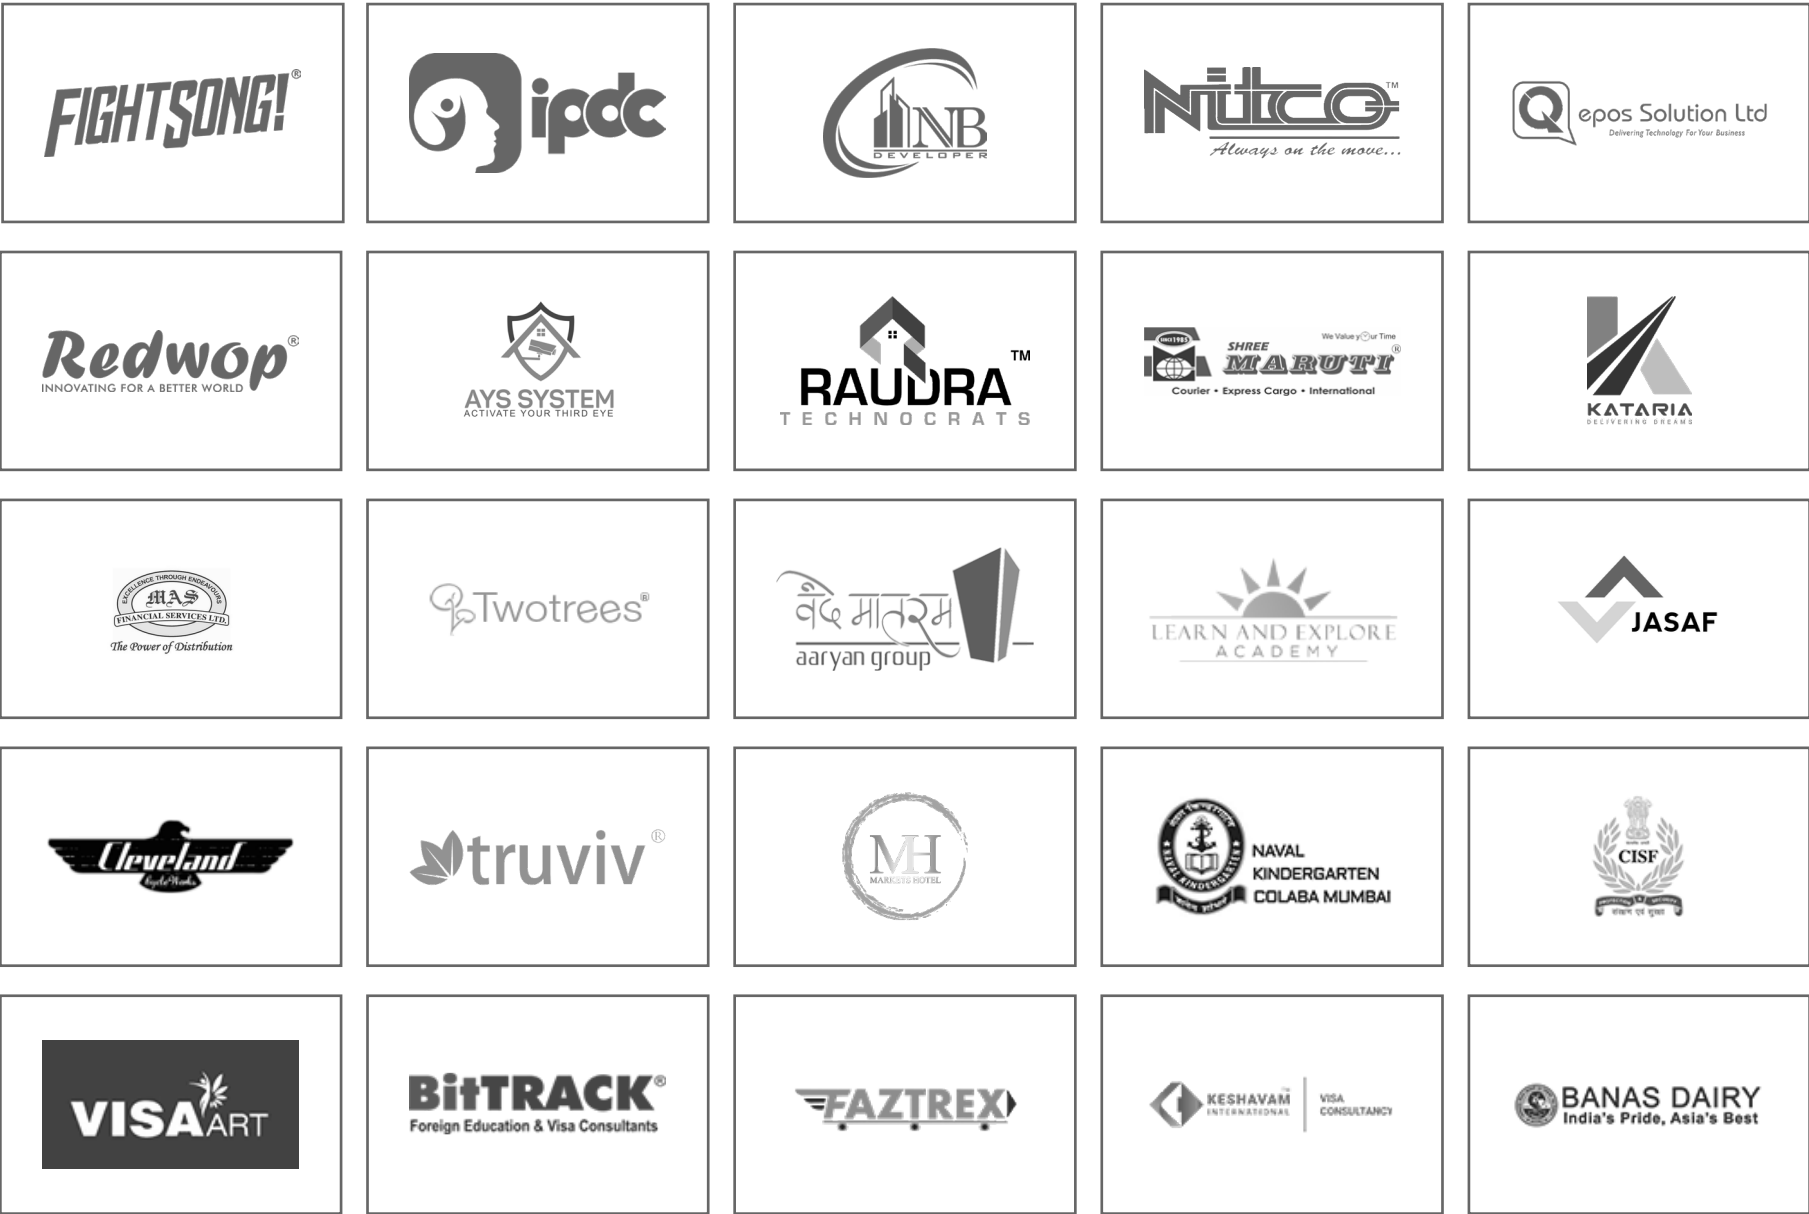

Top reasons why companies outsource Information Technology (IT) services worldwide

We Have Trust

CITTA is an IT Company that delivers state-of-the-art solutions to assist large businesses, enterprises and SMEs across the planet. Our Mission is to strategize, incorporate the latest technologies and deliver business-class solutions to streamline their operations.

Our Mission is to strategize, incorporate the latest technologies and deliver business-class solutions to streamline their operations.

Client Testimonials!!

We collaborate with companies from 30 countries and 15 industries. Our project portfolio includes over 2,000 success stories. We asked our customers what are their impressions on cooperation with Citta – have a look at their answers in the testimonials below.

Jim Smith

Kansas, United States

I have worked with Citta for several years in both my current and previous roles. When technical resource hiring is required, it is key to me that I have a resource who communicates regularly, understands the job requirements and the culture of the company. This is what I have found with working with Citta, they provide all 3.

We have been cooperating with Citta for 5 years. Citta's team of five Dot Net developers and one Test Engineer have been working hard to ensure our E Comm product - QePOS - exceeds our customer's expectations. The team has become an integrated part of QePOS, and we appreciate their efforts and passion for the product.

Prakash Badgujar

Manchester, UK

Sven Schubert

Germany

The work completed was of a high standard and the resource from Citta was very receptive to feedback and amendments. Communication was always positive and pro-active with team Citta being available to discuss amendments to ensure satisfaction with the project.

Brijesh Parmar

London, UK

Excellent Java resource provided who did the job perfectly. We felt java developer has expertise and very diligently finished the task. Excellent in communication and he has thorough technical knowledge. He has also shown us project direction for the future development. We will hire them again.

We worked with Citta in developing our Artesis e-MCM - a versatile predictive maintenance solution. The development and implementation process was very smooth and delivered the exact results we were expecting. We will surely work with them in the future.

Tumay Karaver

Istanbul

Pablo Fernandez

Sydney, Australia

Team members of Citta are knowledgeable, professional and responsive to client vision, input and feedback. Guarang has implemented and supported our tasks & always been available to deliver client milestones in a high quality manner. I will continue to use Citta services for my IT development needs.

“The concerned person had fair knowledge of the android development. Job got done successfully.”
