PRODUCT MODULES

TASK MANAGEMENT

It helps individuals & business effectively organize their tasks. With a simple to use interface, users can begin scheduling, assigning & creating tasks in minutes.

RECRUITMENT MANAGEMENT

A recruitment management system is a set of modules to help you in staffing and recruitment operations automatically.

LEAVE MANAGEMENT

It helps to maintain both manual credit and debit entry of leaves and update the current balance of leaves. It can also keep a track of leave encashment and consider excess leaves a loss of pay.

ATTENDANCE MANAGEMENT

It provides a feature to keep a record of attendance inside the system eliminating manual effort consuming tasks. It is also linked with the school academic year.

PAYROLL MANAGEMENT

It helps individuals & business effectively organize their tasks. With a simple to use interface, users can begin scheduling, assigning & creating tasks in minutes.

CRM

The module allows an organization to manage its relations with the customer in a structured manner.

BANKING MODULE

Helps the organization in managing its all banking services such as fund transfers, account opening, passbook management, etc from the ERP itself.

ADMIN MODULE

it allows the system administrator to set up the back-end of the system and perform basic system configuration, mainly the definition of predefined drop-down fields, etc.

TAXATION MANAGEMENT

This module provides organizations with centralized tax configuration, management, and reporting with the integration of the accounting module.

PRODUCT MODULES

SALES MANAGEMENT

This module is used to perform the operation and document-based tracking of all sales transactions.

VOUCHER MANAGEMENT

The process of creating a payment or receipt voucher is an essential function for many businesses this module helps streamline and automate these processes.

REPORT MODULE

Report Module helps the user to create the predefined and customized report as per requirements excess leaves a loss of pay.

EMPLOYEE PROFILE MANAGEMENT

The module helps the organization to automate their current employee profiling system in a more structured way for better record access and decision making.

PERFORMANCE MANAGEMENT

It enables managers to track and monitor the performance of individual employees as well as departments, and the overall organization.

STOCK MANAGEMENT

It provides you the information about the current stock for individual items between different departments and branches across the organization.

VISITOR MANAGEMENT

It helps in controlling, monitoring, and maintaining the visitor's flow with a systematic and accurate database to access.

EMPLOYEE MONITORING MODULE

The module helps in monitoring employee working both inside & outside office premises by screen record, IoT tools, video recording, etc.

APPROVAL MANAGEMENT

The module digitalizes and automates your current approval mechanism for quick & structured decision making.

PRODUCT MODULES

WAREHOUSE MANAGEMENT

It uniquely allows to manage warehouse operations hassle-free. Our solution allows you to keep records of packet entry, out for delivery, return orders and much more in just a few clicks. Manage everything from one window with ease.

CUSTOMER MANAGEMENT

Comprehensive tools that allow you to customize prices, billing and services to satisfy customer's specific needs. Client management also includes contract billing, sales tracking, electronic notifications, invoicing and much more.

VEHICLE MANAGEMENT

Our courier dispatch software helps dispatchers to know where the driver is, what packages they have and which driver is best suited for the next job. Our solution allows you to track vehicle health and their required maintenance.

CONSIGNMENT TRACKING

All the parcels/consignment can be tracked until they are delivered to the destination. Once delivered, the system has the proof of delivery for future references. Each parcel is given a unique tracking code which makes it easy for the customer as well as the admin to track the parcel.

BRANCH / FRANCHISE MANAGEMENT

User will be Manage Multiple Franchises branch / Center using this module also it will be manage freight Rate as per Branch. This module also manage delivery and pickup center.

INVOICE MANAGEMENT

Billing tools to help you save time by automating invoice generation with online payment gateways. Our solution shows flexible, powerful and user-friendly pricing. An immense number of surcharges can also be automated with ease.

EMAIL MANAGEMENT

The module helps in the auto mailing system and aims to help the system administrator record & control outgoing emails.

CUSTOMIZATION & DEPLOYMENT

DEPLOYMENT TYPE WE OFFER

DEDICATED SERVER

It offers immense power and flexibility, but usually comes at a premium. Your options here could include an upgrade to a virtual private server (VPS) or a dedicated one.

CLOUD

Working in cloud-based environments makes it easy to create and build towards establishing a high degree of integrated functionality plus the deployment is much simpler, faster and less expensive as no on-site infrastructure is required.

OWN PREMISES

It's best for those who don't prefer internet glitches and the entire solution is deployed on a static IP hence zero dependency on third party servers.
