THINK ABOUT IT:

When I saw what Citta could do, I said:
‘That’s what we’re going to do.’

PROJECT

OVERVIEW

Krishna Construction needed a single system they could leverage for continued growth. For fifteen years, Krishna Construction used the same software system. Access to the system was limited, and it lacked desired functionality in areas including project management and billing. Additionally, enhancements weren't being added to their previous system. In 2018, a team was assembled to analyze the issues and review software providers.

PAIN POINTS

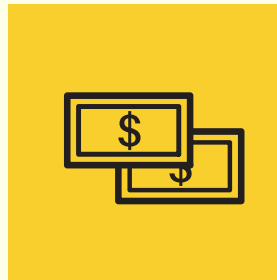

FOR KRISHNA CONSTRUCTION

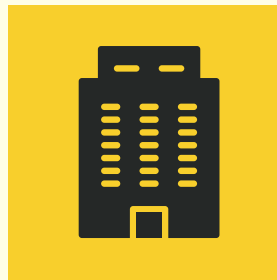

Intercommunication with Construction Division

Raw Material Tracking

Project Budgeting and Costing Evaluation

Asset Management

Resource Live Tracking

OUR SOLUTIONS

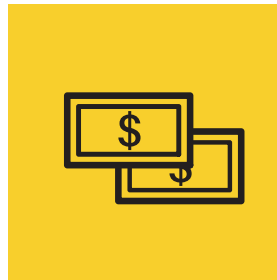

FOR KRISHNA CONSTRUCTION

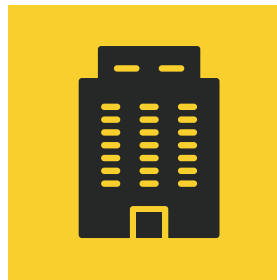

A Business Intelligence based Inter Departmental Communication tool

System provides user's easy cycle of approval & tracking, where management can approve such things based on authority.

Data that is drawn in reports can be allocated to specific projects which gives insight on which projects can make higher margin.

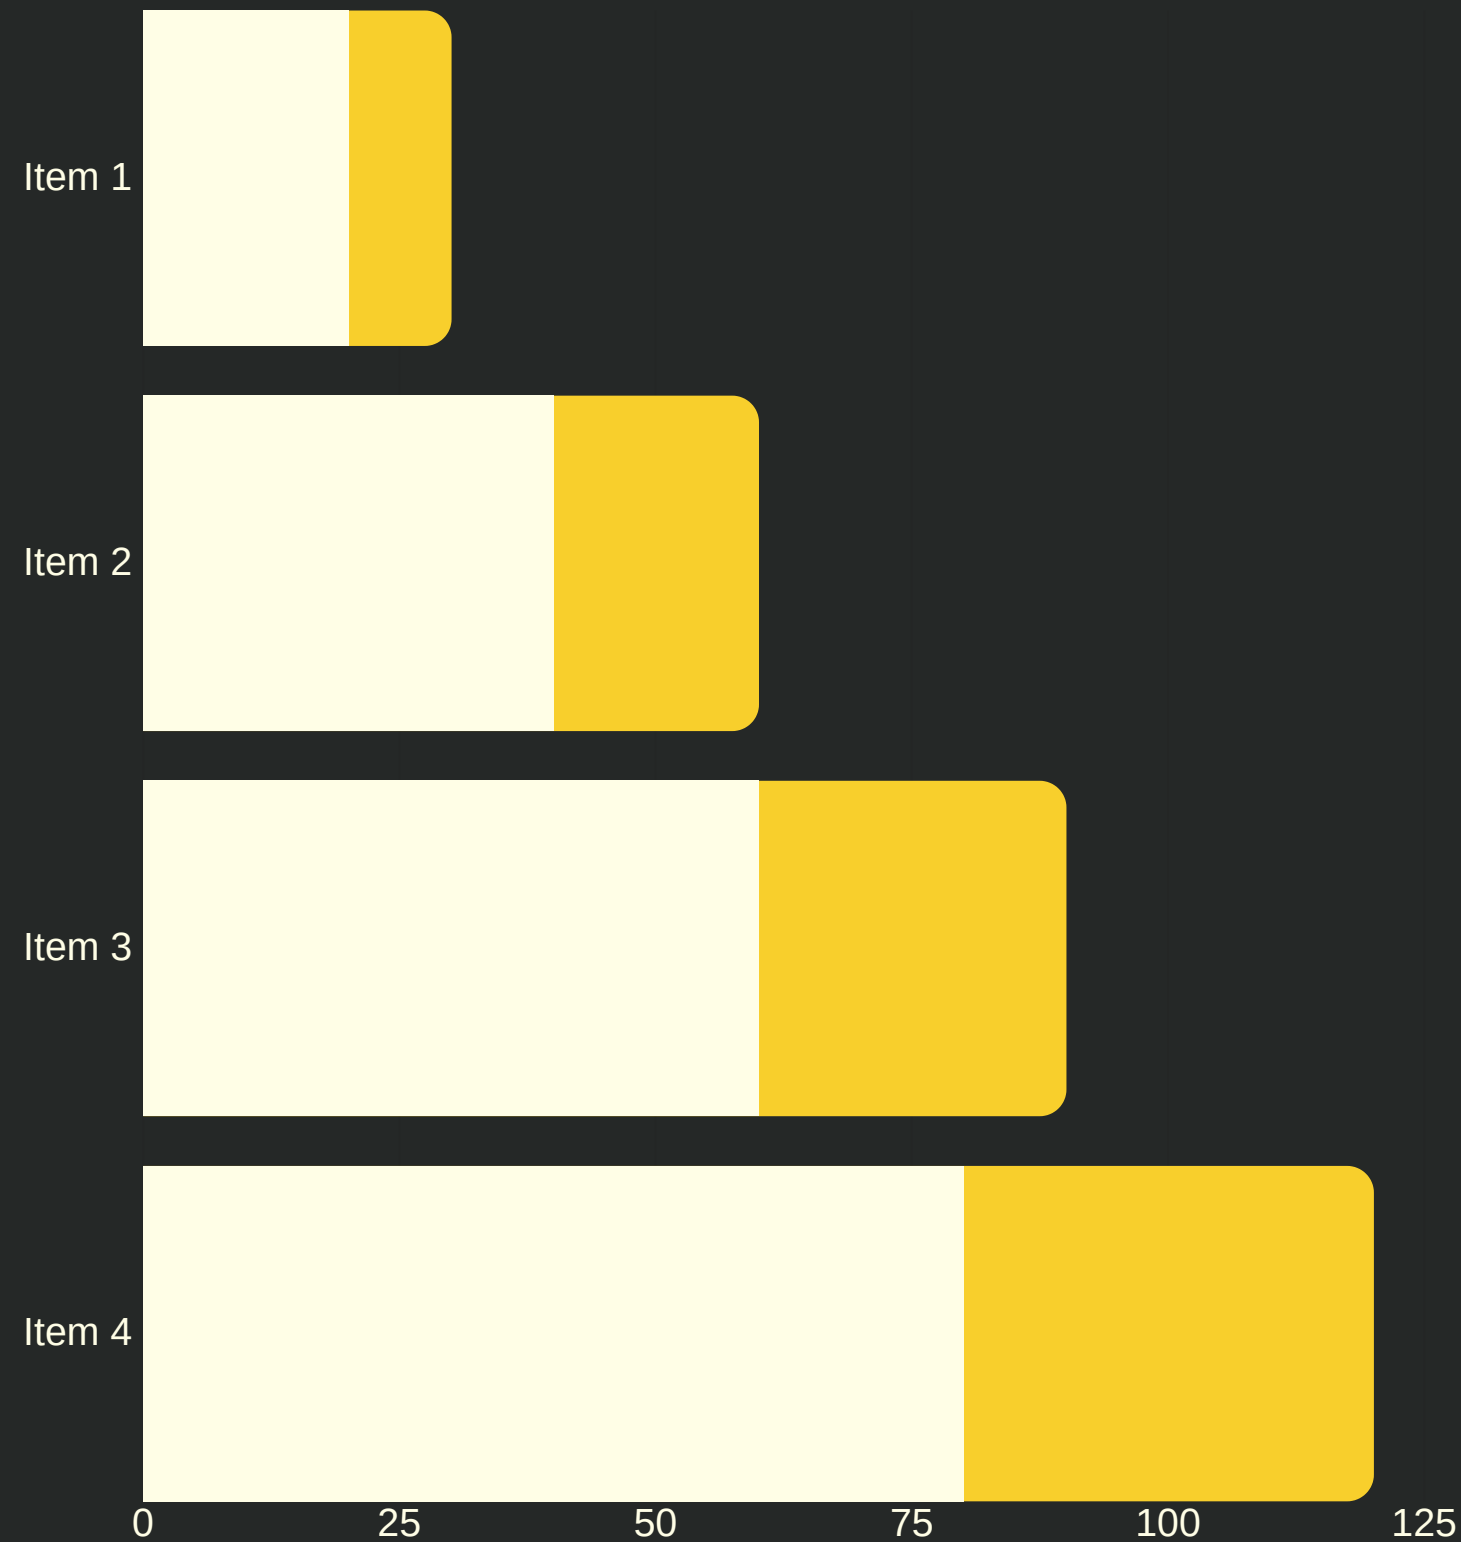

Citta Asset management features handle material invoice record, serialization, supplier history records.

System that allocates resources to various projects effectively and efficiently. It also shows which devices need support and which is fully ready to be used on the job site.

FACTS & FIGURES

- Improved inter branch communication by **40%**.
- Optimize and enhance budgeting process by **40%**.
- Reduce Monitoring Time by **60%**.
- Mobile Application For Instant Online Access Increase Productivity by **30%**.

**IMPROVED INTER
DEPARTMENT
COMMUNICATION.**

**OPTIMIZE AND
ENHANCE
TRACKING
PERFORMANCE.**

LETS HEAR IT FROM THEM

Our time-to-bill has improved significantly since we introduced Citta, and our management team has access to real-time, accurate data.

CFO - Mahesh Patel
