ABOUT PRODUCT

Shiksha365cloud

SHIKSHA365CLOUD

Shiksha365cloud is known for its structure, design, understanding and resourceful competence. Shiksha365cloud, a Cloud-based Academic Institute Management Software, specifically crafted and developed to amplify the process of educational institutions. The use of AI & ML in creating a paperless ecosystem by Shiksha365cloud provides the facility to perform all the activities of the institutes, making them easy, fast, smooth, efficient, and accurate. We at Citta understand the importance of a centralized database management system and have designed and developed Shiksha365cloud after a thorough analysis, to ease the work of the institute stakeholders.

ABOUT CITTA

Citta was founded in 2009 with a mission to succeed by helping our clients succeed. Citta's mission is to create effective and cutting-edge solutions, helping clients maximize their reach online and offline. Citta believes in staying relevant by continuously evolving itself to reach the highest level of excellence.

PRODUCT MODULES

TASK MANAGEMENT

It helps individuals & business effectively organize their tasks. With a simple to use interface, users can begin scheduling, assigning & creating tasks in minutes.

RECRUITMENT MANAGEMENT

A recruitment management system is a set of modules to help you in staffing and recruitment operations automatically.

LEAVE MANAGEMENT

It helps to maintain both manual credit and debit entry of leaves and update the current balance of leaves. It can also keep a track of leave encashment and consider excess leaves a loss of pay.

ATTENDANCE MANAGEMENT

It provides a feature to keep a record of attendance inside the system eliminating manual effort consuming tasks. It is also linked with the school academic year.

PAYROLL MANAGEMENT

It helps individuals & business effectively organize their tasks. With a simple to use interface, users can begin scheduling, assigning & creating tasks in minutes.

CRM

The module allows an organization to manage its relations with the customer in a structured manner.

BANKING MODULE

Helps the organization in managing its all banking services such as fund transfers, account opening, passbook management, etc from the ERP itself.

ADMIN MODULE

it allows the system administrator to set up the back-end of the system and perform basic system configuration, mainly the definition of predefined drop-down fields, etc.

TAXATION MANAGEMENT

This module provides organizations with centralized tax configuration, management, and reporting with the integration of the accounting module.

SALES MANAGEMENT

This module is used to perform the operation and document-based tracking of all sales transactions.

VOUCHER MANAGEMENT

The process of creating a payment or receipt voucher is an essential function for many businesses this module helps streamline and automate these processes.

CONFERENCE MODULE

The module helps in conducting, scheduling, and monitoring video conferences both within & outside the organization.

SOCIAL MEDIA MANAGEMENT

The module helps in managing different social media accounts on a single platform with BI-based dashboards and customized reports.

PERFORMANCE MANAGEMENT

It enables managers to track and monitor the performance of individual employees as well as departments, and the overall organization.

STOCK MANAGEMENT

It provides you the information about the current stock for individual items between different departments and branches across the organization.

VISITOR MANAGEMENT

It helps in controlling, monitoring, and maintaining the visitor's flow with a systematic and accurate database to access.

EMPLOYEE MONITORING MODULE

The module helps in monitoring employee working both inside & outside office premises by screen record, IoT tools, video recording, etc.

APPROVAL MANAGEMENT

The module digitalizes and automates your current approval mechanism for quick & structured decision making.

PRODUCT MODULES //

1 ACADEMIC MANAGEMENT

Maintain your entire Operations from Student management to Class room operations with a technological aid.

TIMETABLE MANAGEMENT

Both manual and automatic timetables, guarantees timely updates on faculty substitution etc.

2

3 HOSTEL MANAGEMENT

Streamlines arrangement and reservation of rooms in teacher accommodations and student hostels.

ALUMNI MANAGEMENT

Stay connected and cultivate your relationship with your alumni with a structured approach.

4

5 FINANCIAL & ACCOUNTING MANAGEMENT

Takes care of accounts receivable and payable, general ledger, taxation and other documents needed for accounting purposes.

FEES MANAGEMENT SYSTEM

Helps the user create a special fee structure according to which fees can be paid weekly, monthly or annually.

6

7 ASSET, INVENTORY & LIBRARY MANAGEMENT

Provides stock & inventory management for multiple positions and completely automates all your library activities.

TRANSPORT MANAGEMENT

Efficiently manages your school bus and other transportation modes to ensure smooth & safe commuting.

CUSTOMIZATION & DEPLOYMENT

DEPLOYMENT TYPE WE OFFER

DEDICTAED SERVER

It offers immense power and flexibility, but usually comes at a premium. Your options here could include an upgrade to a virtual private server (VPS) or a dedicated one.

CLOUD

Working in cloud-based environments makes it easy to create and build towards establishing a high degree of integrated functionality plus the deployment is much simpler, faster and less expensive as no on-site infrastructure is required.

OWN PREMISES

It's best for those who don't prefer internet glitches and the entire solution is deployed on a static IP hence zero dependency on third party servers.
